Status: Review required of descriptions that appear when your mouse moves over each purple button.

The one I am most uncertain about is "spinning and weaving"

Welcome -> about us, newsletter, free chart, recipe

Fibers -> hand-dyed silk, wool and linen fibers

Ribbons -> hand-dyed silk ribbon in a variety of widths

Patterns -> our own designs

Special Things -> limited offerings of fibers and ribbons

Spinning and weaving -> exclusive US distributor for XYZ looms **Cece – What should go here?**

Welcome

Status: Incomplete

Provide short descriptions of ribbons and patterns

Link free chart and beyond the dyepot

Redo the featured designer and free chart icons in the same 2 or 3 colors as news and btd

Fibers

Status: Incomplete

Need pictures of each of the fiber lines

Introductory paragraph – **Cece**

We discussed things like: Just like with wallpaper and carpet it's important that you buy enough of a single dye run to complete your project, subtle differences of the same color and fiber exist between dye lots. This is especially visible in large areas of stitches of the same color. We do not guarantee our dye lots or colorfastness. There will be dye lot differences. Take care with your project because we do not recommend washing your piece. Hot water can reactivate the dye. We follow textile industry standards for setting the color in our fibers...

Add to each of the color samples page – These images should be used as general guides to color due to variations among monitors and operating systems at displaying color. For true color matching, we recommend visiting a needle work store.

1. Silk 'n Colors – Status: Incomplete; Need pictures of new colors link to London Tube colors
2. Shepherd's Silk - Status: Incomplete; Need to add picture comparing SS and SPS; Discontinued colors; list new colors
3. Sheep's Silk - Status: Incomplete; Need to add picture comparing SS and SPS; Discontinued colors; list new colors
